## HAEMATOLOGY REPORT

| Investigations                         | Values | Unit                | Bio-logical Reference |
|----------------------------------------|--------|---------------------|-----------------------|
| *HEMOGLOBIN                            | 14.11  | g/dl                | 13.0 - 17.0           |
| Method: Cyan-methemoglobin             |        |                     |                       |
| *PCV                                   | 44.9   | %                   | 40.0 - 50.0           |
| Method: Mathematical Calculatio        |        |                     |                       |
| *RBC COUNT                             | 4.88   | million/ $\mu$ l    | 4.5 - 5.5             |
| Method: Light scatter                  |        |                     |                       |
| MCV                                    | 92.1   | fL                  | 83.0 - 101.0          |
| Method: Mathematical Calculation       |        |                     |                       |
| MCH                                    | 28.9   | pg                  | 27.0 - 32.0           |
| Method: Mathematical Calculation       |        |                     |                       |
| MCHC                                   | 31.4   | g/dl                | 31.0 - 37.0           |
| Method: Mathematical Calculation       |        |                     |                       |
| R.D.W.                                 | 14.8   | %                   | 11.5 - 14.5           |
| Method: Measured, RBC Histogram        |        |                     |                       |
| *PLATELET COUNT                        | 352.9  | 1000 cells/ $\mu$ l | 150.0 - 410.0         |
| Method: Light scatter                  |        |                     |                       |
| MPV                                    | 8.81   | fL                  | 6.8 - 10.9            |
| Method: Measured Platelet Histogram    |        |                     |                       |
| *TOTAL LEUCOCYTE COUNT (TLC)           | 19.87  | 1000cells/ $\mu$ L  | 4.0 - 10.0            |
| Method: Peroxidase/Basophil/Lobularity |        |                     |                       |
| *NEUTROPHILS                           | 92.0   | %                   | 40.0 - 75.0           |

### Remarks:

The biological reference range pertains to the age and sex of the Patient.

**Note:** As the reports are computer generated, it must be treated as an original.

**Dr. Anuja Sharma**  
 Consultant Pathologist  
 Reg.No. 455
