## HAEMATOLOGY REPORT

| Investigations                         | Values       | Unit                | Bio-logical Reference |
|----------------------------------------|--------------|---------------------|-----------------------|
| *HEMOGLOBIN                            | <b>11.13</b> | g/dl                | 12.0 - 15.0           |
| Method: Cyan-methemoglobin             |              |                     |                       |
| *PCV                                   | 36.0         | %                   | 36.0 - 46.0           |
| Method: Mathematical Calculatio        |              |                     |                       |
| *RBC COUNT                             | <b>3.70</b>  | million/ $\mu$ l    | 4.5 - 5.5             |
| Method: Light scatter                  |              |                     |                       |
| MCV                                    | 97.2         | fL                  | 83.0 - 101.0          |
| Method: Mathematical Calculation       |              |                     |                       |
| MCH                                    | 30.1         | pg                  | 27.0 - 32.0           |
| Method: Mathematical Calculation       |              |                     |                       |
| MCHC                                   | <b>30.9</b>  | g/dl                | 31.0 - 34.5           |
| Method: Mathematical Calculation       |              |                     |                       |
| R.D.W.                                 | <b>18.9</b>  | %                   | 11.5 - 14.5           |
| Method: Measured, RBC Histogram        |              |                     |                       |
| *PLATELET COUNT                        | 209.0        | 1000 cells/ $\mu$ l | 150.0 - 410.0         |
| Method: Light scatter                  |              |                     |                       |
| MPV                                    | 9.45         | fL                  | 6.8 - 10.9            |
| Method: Measured Platelet Histogram    |              |                     |                       |
| *TOTAL LEUCOCYTE COUNT (TLC)           | <b>22.03</b> | 1000cells/ $\mu$ L  | 4.0 - 10.0            |
| Method: Peroxidase/Basophil/Lobularity |              |                     |                       |
| *NEUTROPHILS                           | <b>85.0</b>  | %                   | 40.0 - 75.0           |

### Remarks:

The biological reference range pertains to the age and sex of the Patient.

**Note:** As the reports are computer generated, it must be treated as an original.
