## HAEMATOLOGY REPORT

| Investigations                         | Values | Unit                | Bio-logical Reference |
|----------------------------------------|--------|---------------------|-----------------------|
| *HEMOGLOBIN                            | 11.0   | g/dl                | 11.0 - 14.0           |
| Method: Cyan-methemoglobin             |        |                     |                       |
| *PCV                                   | 34.5   | %                   | 30.0 - 38.0           |
| Method: Mathematical Calculatio        |        |                     |                       |
| *RBC COUNT                             | 4.39   | million/ $\mu$ l    | 3.9 - 5.1             |
| Method: Light scatter                  |        |                     |                       |
| MCV                                    | 78.7   | fL                  | 72.0 - 84.0           |
| Method: Mathematical Calculation       |        |                     |                       |
| MCH                                    | 24.8   | pg                  | 24.0 - 30.0           |
| Method: Mathematical Calculation       |        |                     |                       |
| MCHC                                   | 31.5   | g/dl                | 32.0 - 36.0           |
| Method: Mathematical Calculation       |        |                     |                       |
| R.D.W.                                 | 16.9   | %                   | 11.5 - 14.5           |
| Method: Measured, RBC Histogram        |        |                     |                       |
| *PLATELET COUNT                        | 336.0  | 1000 cells/ $\mu$ l | 200.0 - 490.0         |
| Method: Light scatter                  |        |                     |                       |
| MPV                                    | 10.87  | fL                  | 6.8 - 10.9            |
| Method: Measured Platelet Histogram    |        |                     |                       |
| *TOTAL LEUCOCYTE COUNT (TLC)           | 23.68  | 1000cells/ $\mu$ L  | 5.0 - 15.0            |
| Method: Peroxidase/Basophil/Lobularity |        |                     |                       |
| *NEUTROPHILS                           | 80.0   | %                   | 28.0 - 56.0           |

### Remarks:

The biological reference range pertains to the age and sex of the Patient.

**Note:** As the reports are computer generated, it must be treated as an original.
