

Patient Name	: Ms Abhinor Kour	UID	: HLD0408202431379
Age	: 04 Years	Sample Date	: 04-08-2024
Sex	: Female	Test Date	: 04-08-2024
Ref Doctor	: Dr Aarogya Lab	Report Date	: 06-08-2024

MICROBIOLOGY

Culture, Aerobic (URINE)

Culture Result	-	POSITIVE	
Colony Count	-	>10^3 CFU/ml	
Organism	-	Escherichia coli	
Ampicillin	S	Imipenem	S
Gentamicin	S	Ceftazidime	S
Cefazolin	S	Meropenem	S
Tobramycin	S	Fosfomycin	S
Cefuroxime	S	Nitrofurantoin	I
Amikacin	S	Colistin	S
Cefepime	S	Piperacillin Tazobactam	S
Ciprofloxacin	S	Tigecycline	S
Cefotaxime	S	Cotrimoxazole	S
Ceftriaxone	S	Levofloxacin	S

REMARKS : Culture positive with bacterial count >10³ CFU/ml. Kindly correlate clinically.

Dr. LUBNA SAMAD
Consultant Microbiologist
Reg No JK-3307

These technical data are best evaluated by the referring doctor or a qualified professional.

Please note that:

1. Data on normal ranges is as provided by the manufacturer for the kits being used in the laboratory. It is therefore likely that these may not match exactly with similar data provided by other laboratories should they be using kits from a different manufacturer.
 2. Biological data (like those given in this report) are normally known to vary from day to day.
 3. Any test, especially a chemical test, is never accurate to the last decimal point. Even duplicate readings of a test taken from the same sample and processed by exactly the same method will show a small variation.
- Your doctor will be able to judge whether differences, if any, are attributable to normal physiological variations, or need to be considered otherwise.
